GPK518 CDM-TMW R

Reflector

Manufacturing customers want energy-efficient lighting solutions to help ensure their factories are green. Versebay Elite is a high-bay luminaire incorporating high-efficacy CDM Elite lamp technology, as well as extremely efficient gear, which almost halves energy consumption compared with a conventional metal-halide solution. It also provides brilliant lighting performance with excellent color rendering. Versebay Elite's choice of wide and narrow beams makes it suitable for a variety of applications. The luminaire's robust construction and high ingress protection also mean it can be deployed in the most demanding, heavy-duty working environments.
